

Screening at the Midland Public Library
Event Report
April 25, 2013

On Thursday, April 25th, the Simcoe Huronia Association for Renewable Energy (SHARE) presented the screening of the documentary Switch. The film addresses worldwide energy production and consumption, and looks at ways that we might transition to a sustainable energy future.

SCREENING FACILITATOR

Julie Barker, SHARE

Time for discussion was brief. The group felt it was worthwhile to have viewed the film, even though there were several viewers who disagreed with some of the statistics given in it.

One viewer felt there was some repetition and that the film might have been more effective if it had been shorter.

Some viewers expressed the hope that some ideas for mitigating actions will be inspired by films like this. One suggestion was that the filmmakers could suggest how people can mobilize to action.
